HIV Inter-Professionalism Pathway for MEDICAL RESIDENTS

Exciting Opportunity in HIV Care and Prevention

OBJECTIVES

- Provide opportunity for trainees with an interest in HIV care and prevention to:
    - Improve knowledge base of HIV medicine and interprofessional (IP) care of people living with HIV (PLWH)
    - Understand and incorporate knowledge of social determinants of health into patient care
    - Work more effectively with colleagues in other disciplines with shared goal of providing excellent patient care. Appreciate roles of different disciplines.
    - Gain early experience in care of PLWH to test out possible career path.
- Earn pathway certificate upon completion of program requirements
- Engage with HIV medical community by attending academic conference

TIMELINE & ENROLLMENT

- Requirements are to be completed by May 1 of last PG year in program
- Residents should declare interest as soon as early as possible, as there will be limited spots/funding available. Interested residents should email director and coordinator to enroll by July 1 of last PG year in program, at the latest.

*Note that this pathway is in addition to and outside of required coursework, and not intended to replace or interfere with other required academic activities. Duty hours should be adhered to.

Upon completion of the program, earn a Pathway Certificate and up to $2k for conference attendance, society memberships, and/or HIVMA Certification.

Pathway is sponsored by and in partnership with Mid-Atlantic AIDS Education Training Center (AETC) and JACQUES Initiative (JI) Preparing the Future(PTF) program
